

REMARKS

This is in response to the office action mailed January 7, 2008. A Petition for an extension accompanies this Response.

Claims 1 to 20 are in this application. Claims 2, 7, 8, 13, 16, 17, 18 and 20 have been amended to address specific formality objections and rejections raised by the Examiner.

Drawings

The Examiner's objections to the drawings have been noted and amended drawings are submitted herewith which overcome these objections. It is submitted that the amendments to the drawings include no new matter. As such, the Examiner is requested to enter the amendments and withdraw the objections.

Specification

The Examiner's comments and objections to the specification and abstract of the disclosure have been noted and amendments are submitted herewith which overcome these objections.

Further, the specification has been supplemented on page 7 to describe features previously mentioned in the claims. These features are also in the amended drawings.

It is submitted that the amendments to the specification as indicated above include no new matter. As such, the Examiner is requested to enter these amendments.

Claims

The claim amendments submitted herewith address all of the issues raised by the Examiner in the office action. As such, all of the claims are considered to contain allowable material. Allowance of the claims is therefore respectfully solicited.

Conclusion
